## Christmas is for life, not just December

We all know the Christmas story inside out and back to front. The donkey, the manger, the angels and shepherds and star. But Christmas it's not just a quaint annual tradition. Because at the heart of the story is a baby whose arrival changes everything, for all time. The first Christmas is the moment on which all of history turns, and in which all of creation is offered redemption.

This Advent at Clarence Park we will join with those at Milton and Worle Baptist Churches on an Advent journey based on a book by Jo Swinney (published by BRF) in which will explore the significance of Jesus' birth in the context of the whole Bible.

Starting in Genesis and working through to Revelation, we will see how Christ came to a world worth saving; how human sin affects every part of life; how God promised to redeem all of his creation; and how in Jesus, God made good on that promise.
